Commentary Your body broken The bread is torn apart Your life blood flowing The wine within the cup These words are, at the same time metaphorical language, and represent much more than a metaphor. Baillie quotes, P.T. Forsyth maintained that in the original `Last Supper it was not so much the bread as the breaking, not so much the elements as the actions, that were symbolical. 1 The words of this verse seek to portray the symbol of not just bread and not just wine. Nor do they symbolise just the body, or just the blood. But in the taking of the bread and its tearing apart and in the flowing of the wine, we have the symbol. The symbol is that of the sacrifice of Christ. Baillie adds that the `sensible signs in this sacrament consist..... also of the actions, including the words spoken . These words, which form part of this symbol, are well represented throughout this song. We keep returning to them as we remember, in order to contextualise what the rest of the song presents. This food you ve set before us This fruit of field and vine. Recalls to us your mercy They are to us a sign 1 Forsyth PT. 1953 in Baillie DM. 1957. The Theology of the Sacraments. They were beaked whales, of which there are 20 known species. Relatively small members of the cetacean family, they resemble outsize dolphins, and because of their deep-diving ways, they are among the least observed and understood. Curiously, the stranding on Isla San José followed by just one day the stranding of at least 14 other beaked whales 5,700 miles away along the Canary Islands beaches of Lanzarote and Fuerteventura. Rescuers there worked feverishly to water down the whales and keep them cool. They all eventually died, however, and some of their bodies were immediately sent to the nearby city Las Palmas de Gran Canaria for analysis. [Watching whales watching us](#)

Description:

From Publishers Weekly This memoir of Patchett's friendship with *Autobiography of a Face* author Lucy Grealy shares many insights into the nature of devotion. One of the best instances of this concerns a fable of ants and grasshoppers. When winter came, the hard-working ant took the fun-loving grasshopper in, each understanding their roles were immutable. It was a symbiotic relationship. Like the grasshopper, Grealy, who died of cancer at age 39 in 2002, was an untethered creature, who liked nothing more than to dance, drink and fling herself into Patchett's arms like a kitten. Patchett (*The Patron Saint of Liars; Bel Canto*) tells this story chronologically, in bursts of dialogue, memory and snippets of Grealy's letters, moving from the unfolding of their deep connection in graduate school and into the more turbulent waters beyond. Patchett describes her attempts to be a writer, while Grealy endured a continuous round of operations as a result of her cancer. Later, when adulthood brought success, but also heartbreak and drug addiction, the duo continued to be intertwined, even

though their link sometimes seemed to fray. This gorgeously written chronicle unfolds as an example of how friendships can contain more passion and affection than any in the romantic realm. And although Patchett unflinchingly describes the difficulties she and Grealy faced in the years after grad school, she never loses the feeling she had the first time Grealy sprang into her arms: "[She] came through the door and it was there, huge and permanent and first."

From School Library Journal Adult/High School—Lucy Grealy, whose *Autobiography of a Face* (HarperCollins, 1995) found critical acclaim as well as a popular readership, died two years ago. Patchett first met the poet in college, became her roommate in graduate school, and remained devoted to her through years of artistic, medical, economic, and emotional upheavals. The ties binding these two women included resolve to meet physical adversity with energy and to place friendship beyond the reaches of either habit or convenience. Patchett moves the story from their acclimation to one another through her friend's lifelong desire to gain a reconstructed face and the lengths to which she went in search of what she'd lost to childhood cancer, to Grealy's ultimate slide into drugs and suicidal ideations. Patchett's own self-perception as the straight arrow to her friend's daredevilry is disclosed across time, as is Grealy's increasingly frenetic chase for a reconstructed face and, as important, for fame earned through writing. In spite of the story unfolding through the years between college and near middle age, teenage girls will find it accessible and engaging. The author's clear-eyed depiction of the writer's life as requiring gigs waiting tables and suburban tract housing is refreshingly honest. She includes details of more glamorous moments as well; this is no cautionary tale, but a celebration of friendship and of craft.—*Francisca Goldsmith, Berkeley Public Library, CA*
