The Tooth Fairy is a fantasy figure of early childhood in Western and Western-influenced cultures. The folklore states that when children lose one of their baby teeth, they should place it underneath their pillow or on their bedside table and the Tooth Fairy will visit while they sleep, replacing the lost tooth with a small payment. The tradition of leaving a tooth under a pillow for the Tooth Fairy or another fantasy figure to collect is practised in various countries. 4. Sometimes the Tooth Fairy is a mouse. Many global baby-tooth traditions are tied to rodents. Psychiatrist and physician Leo Kanner's 1928 study "Folklore of the Teeth" references children offering their lost baby teeth to mice, rats, squirrels, or other animals known to have sturdy teeth. In Spain, author Luis Coloma developed the character El Ratoncito Pérez as a Tooth Fairy analog for the boy-king Alfonso XIII. Unsurprisingly, the value of a tooth is tied not only to family income level, but geographic region—the Tooth Fairy tends to be more generous in the Northeast and stingier in the South and West.
