Description:

Review "A glorious book. Jean Shinoda Bolen's weaving of myth, science and keen observation makes this an outstanding contribution to the humanities."--Rita Mae Brown --This text refers to an alternate edition.

From the Author I wrote *Goddesses in Everywoman* as a psychology of women, that has over the past fifteen years since I wrote it, become something of a classic. I've been told how useful it has been to facilitate discussions between mothers and daughters, sisters, and friends about their differences and similarities. It's helped men understand the significant women in their lives (something women who have given the book to husbands and lovers, with chapters or passages marked, hoped would happen). It's a book that has become a text in a very wide variety of courses from high school to graduate school, in mythology, psychology, women's studies, literature, creative writing, drama, and counseling, and had a major influence in women's spirituality. Its perspective and mine is Jungian, feminist, spiritual, clinical, right brain

and left.

I wish that women readers would also read *Gods in Everyman*, for a complete understanding of themselves. I think that just about every woman who does so, will find an aspect of herself in a god-archetype, which completes her internal pantheon. For example, Hermes (Mercury) the messenger god, is a very significant archetype in me. I have the exploratory energy of Artemis, but it is Hermes that puts what I learn in words and makes the intuitive connections.

Besides *Gods in Everyman*, two of my other books are related. *Ring of Power* (a new edition will be published February 1999) based on Richard Wagner's operatic Ring Cycle, focuses on dysfunctional family relationships between these same archetypes (with different names). In *Crossing to Avalon*, I wrote about my pilgrimage to sacred sites and what I experienced of goddess spirituality. A "sequel" to *Goddesses in Everywoman* is in the works -- I am now writing *Goddesses in Older Women*. --This text refers to an out of print or unavailable edition of this title.

Bolen's radical idea was that just as women used to be unconscious of the powerful effects that cultural stereotypes had on them, they were also unconscious of powerful archetypal forces within them that influence what they do and how they feel, and which account for major differences among them.
