Description:

Who is best equipped to give sex tips to heterosexual women about how to please a man in bed? Why, gay men, of course. Who would know better than gay men what makes men happy? Dan Anderson (gay) and best friend Maggie Berman (straight) have collaborated on this how-to book for women who feel that their lovers are afraid to ask for what they want. Chatty, informative, and graphic--in a clinical, not sexy way--Anderson and Berman have borrowed a little from , a little from , and a lot from and to show women how the other half loves. Never smug and mostly useful, *Sex Tips* shows that sexual orientation can as easily be a potluck as a culture clash. --This text refers to the edition.

Gay men look at every sexual encounter as a once-in-a-lifetime performance. While women get gold stars for having food in the fridge for the next morning, gay men know that their partners may not hang around that long. They want everything to be perfect and do their best to design the most fabulous experience ever—whether they expect to see that person again or not. So while some of these tips may seem obvious, they’re worth keeping in mind. [2] Sex Tips opened in February 2014 at 777 Theatre. After a four-and-a-half year run, Murphy released a statement announcing the end of the show's New York City run, with the last performance on June 22 of 2018. [3]. Women know that they are usually not going to find out anything real from their partners if that partner happens to be a man. So what’s a woman to do? The only truly accurate way to learn the sexual tricks of the trade, or what makes a guy really moan, is to go straight to the source: a man. Sex Tips contains such highly classified man-pleasers as: The Flying Wallenda Position. The Upstanding Citizen. What caught my interest when browsing through this book though, was that Is there a secret to sex that gay men know and women don't? Nah, of course there isn't. But maybe there are still people out there who appreciate being educated in safe sex, growers and show-ers and how to avoid gagging (author's advice: relax your muscles, coordinate your breathing, Mr. Stiffy is your friend :p). But then again, they probably wouldn't be the sort of people who pick up books with "sex" or "gay" in the title?
