

Stewards of Life: Bioethics and Pastoral Care

By Sondra Ely Wheeler

Abingdon Press, United States, 1999. Paperback. Book Condition: New. 234 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****.In Stewards of Life, Sondra Ely Wheeler presents a compact, basic introduction to the language and principles of contemporary bioethics. Perhaps more importantly, by providing a theological explanation and critique of the language and principles of bioethics as applied in medical contexts, she positions bioethical issues firmly within the context of the biblical narrative that forms the church and shapes Christian understanding of human life. Wheeler uses sample cases to illustrate the ways in which bioethical principles, appropriately understood, inform Christian moral reflection. She further gives specific attention to pastors and chaplains roles in helping patients and their families confront medical crises as members of the community of faith.

The contribution of pastoral and spiritual care practitioners toward resolving bioethical dilemmas will be considered, as will the recognition and inclusion of religious, pastoral, and spiritual care, as an integral part of holistic person-centered care that not only benefits the individual, but also benefits communities both locally and globally. Stewards of Life: Bioethics and pastoral care. London: Abingdon. Carey, L. B. (2012b). Source for information on Pastoral Care and Healthcare Chaplaincy: Encyclopedia of Bioethics dictionary. And they set health and healing as values into an encompassing faith perspective that affirms the meaningfulness of life whether or not healing occurs. For the healthcare chaplain, this larger context is ultimately rooted in the reality and loving power of God, who makes health possible, but who also makes meaning, hope, and love possible in every circumstance of life, in illness and adversity as well as in health and wholeness. Thus pastoral identity is bipolar, committed to both healing and religious faith and to their essential interrelationship. The topic of bioethics also has a more mundane life that isn't usually newsworthy. It involves the difficult and important conversations and decisions that take place at a patient's bedside in a hospital or elder care facility between patients, family and friends, and members of the healthcare team, including those providing pastoral care. Ministers, deacons, and church members might also be a part of these conversations. Sondra Wheeler (Stewards of Life) provides a helpful explanation of how autonomy also reflects Christian theological affirmations. Why would Christians respect the right and responsibility of people to make and act upon decisions regarding their own life? Steward's Transformative Health Care. Over the last decade, Steward Health Care has perfected a unique vertically and horizontally integrated model that achieves the highest quality care, increases patient access, and substantially reduces total medical expenses. We are led by world class physicians and prioritize delivering the best in preventive care to ensure patients are spending more time pursuing healthy, active lives, and less time in the hospital. Steward Business Model. 30 Pastoral Healthcare Ethics In Bioethics we shall find our method and our sources of information. What is Bioethics? "Bio" in Greek means life Bioethics is the philosophical study of the ethical issues and controversies brought about by advances in biology and medicine. It is important here to explain to the couple that we are simply stewards of our lives. We had no choice in our births, nor do we have any choice in our time of death. Life is God's alone to give, and His alone to take away. 109 Holistic Pastoral Healthcare Spiritual and Pastoral Care of the Sick Today we have far fewer priests available, and this has meant a significant reduction in the number of hospital priest chaplains. This shortage is partly being addressed by the steadily increasing number of permanent deacons.
