

# Environment and National Security: The Case of South Asia / Narottam Gaan / 2000 / South Asian Publishers, 2000 / 9788170032311 / 265 pages

The author analyzes the problems of Central Asian security and the role the CSTO and SCO play in ensuring it; he looks at the past, outlines the stages of building an efficient regional security system designed to oppose contemporary challenges, and concludes that regional integration as the only effective answer to the threats and challenges should be continued lest the region remains forever. In an insecurity zone and falls behind the international community, which will deprive Central Asia of its chance for political and economic success.
